

Shanmukha Venkata Laxman Rao Vemala

Front-End Developer | React.js | JavaScript | Redux
+91 9110778735 | shanmukhvemala@gmail.com

OBJECTIVE

Experienced UI/Web Developer with over 4 years of expertise in creating dynamic and responsive web applications using React.js and related technologies. Proficient in front-end development, including state management with Redux and Context API, optimizing performance, and integrating third-party libraries. Skilled in building reusable, scalable components, and collaborating with cross-functional teams to deliver high-quality solutions. Adept at handling complex data-driven projects, and resource allocation tools, with a focus on user-centric design and seamless API integration.

PROFESSIONAL SUMMARY

- **4 years of experience** in developing dynamic and responsive web applications using **React.js, Redux**, and related front-end technologies.
- Expertise in **state management** with **Redux** to efficiently manage global application states.
- Extensive experience working with **React hooks** including **useState, useEffect, useContext, useReducer**, and **useMemo** to enhance performance and optimize functional components.
- Proficient in **useSelector** for accessing Redux state and **useDispatch** for dispatching actions within functional components.
- Skilled in **integrating third-party libraries** and **RESTful APIs** for seamless data synchronization and real-time updates.
- Strong background in **building reusable, modular components** that simplify development and improve code maintainability.
- Experience in developing **interactive UI elements**, such as dynamic forms, tables, and dashboards, for data management and user interactions.
- Focused on **optimizing application performance**, reducing **API latency**, and ensuring smooth user experiences across various devices and browsers.
- Hands-on experience in **responsive web design**, ensuring applications are optimized for both desktop and mobile views.
- Adept at collaborating with **cross-functional teams** to ensure seamless backend integration, API design, and efficient project delivery.
- Proficient in **front-end testing** and writing **test cases** to ensure high-quality, bug-free code.
- Strong problem-solving abilities with experience in debugging and addressing complex technical challenges efficiently.

TECHNICAL SKILLS

HTML5, JavaScript, React JS, React Advanced Concepts, Axios, postman, AntD, Redux, UI Technologies, Bootstrap, React bootstrap, Web Components and Test Cases and I have knowledge about React Native, node JS, jest and express JS.

PROFESSIONAL EXPERIENCE

UI Developer

October 2021 – Present

- Developed and maintained front-end architecture for multiple web applications using HTML5, CSS3, JavaScript, and ReactJS.
- Utilized Redux for efficient state management and to streamline communication between UI components.
- Collaborated closely with back-end developers to integrate RESTful APIs, ensuring seamless data flow and user experience.
- Optimized web page load times through techniques like asynchronous loading, lazy loading, and reducing render-blocking JavaScript.
- Worked in an Agile environment, contributing to regular sprint planning, stand-ups, and code reviews.
- Maintained version control with Git and GitHub, ensuring consistent deployment of new features and bug fixes.

PROJECTS

Project Experience (Infyshine Technologies Pvt Ltd | October 2021– Present)

Workshine Application (combining Employee Management, Timesheets, Appraisals, Users, Payroll, Dashboard & Theming)

Tech stack: ReactJS, React hooks, React Router, Redux, React bootstrap, HTML5, CSS3

- Designed and developed a **comprehensive enterprise resource management system** covering employee management, timesheets, payroll, appraisals, and user administration.
- Implemented **end-to-end CRUD operations** with dynamic forms, tables, and modals for seamless data management across multiple modules.
- Utilized **React.js, Redux, and hooks (useState, useEffect, useMemo, useReducer)** to build scalable, reusable, and high-performing components.
- Integrated **RESTful APIs** with robust error handling, validation, and real-time data synchronization for smooth communication with backend systems.
- Developed **role-based access control (RBAC)** ensuring secure, permission-based navigation and functionality for employees, managers, HR, and admins.
- Enhanced **UI/UX** by implementing responsive layouts, reusable UI components, and modern theming using AntD, Bootstrap, and React-Bootstrap.
- Built **performance-optimized tables and dashboards** with pagination, filtering, bulk operations, and real-time updates for handling large datasets.

- Implemented **multi-step workflows** (e.g., timesheets approvals, appraisal reviews) ensuring smooth hierarchical processes across departments.
- Designed **document attachment features** supporting uploads like ID proofs, salary documents, and appraisal reports for centralized record-keeping.
- Delivered a **modernized application theme** with a fresh color palette, typography, and consistent styling, improving overall accessibility and user adoption.

EDUCATIONAL QUALIFICATION:

- B. Tech (ECE) from Pydah engineering college, Visakhapatnam 2019
- Diploma from Behara polytechnic college, Visakhapatnam 2016
- SSC from St. Peters high school, Visakhapatnam, 2013

Declaration: I hereby declare that all the information/statements mentioned above is correct and true to the best of my knowledge.

Place: Visakhapatnam,
V.S.V.Laxman Rao
